

DEWEK 2010

10th German Wind Energy Conference

Announcement and Call for Papers

ENGLISH

DEWI organises for the tenth time the biennial German Wind Energy Conference in Bremen from 17 to 18 November 2010. The very successful DEWEK conferences, the last one was visited by more than 640 engineers and scientists from 32 countries, are known as the most important mirror of the leading German science and technology development in wind energy. Since the last conference in 2008 the boom of the global wind energy markets has continued and more and more countries are joining in. Also, offshore wind energy in Germany finally became reality last year with the installation of the offshore test site "alpha ventus". All the new players will certainly visit the DEWEK 2010 to use the opportunity to network with their international colleagues and to see one or the other wind turbine of the 5/6 MW class.

Together with the exhibition of manufacturers, suppliers, universities and engineering companies the DEWEK 2010 will again be the real technical/scientific market place for the on- and offshore wind energy development. The conference topics will focus on multi-megawatt wind turbines and the challenge of the very specific German far-offshore wind energy application, supplemented by the technical optimisation, necessary to increase economic efficiency, reliability and durability which is gaining more and more importance. Two days with very interesting presentations and new research results, two days which will be really worthwhile to attend.

Exhibition in the Conference Centre

60 exhibitors represented the whole spectrum of the wind industry in the DEWEK 2008. The large number of foreign visitors expected will make it particularly attractive for companies to participate in the exhibition and to present their latest products and developments in technical discussions with the delegates of the conference.

Conference Dinner

On the evening of the first conference day the conference dinner will be held in the cellar of the historical town hall of Bremen.

Technical Excursion

On Friday, 19 November, the day after the conference, the participants will have the opportunity to visit in a one day technical excursion one or more multi-megawatt wind turbines.

Conference language

Language of written contributions and posters

The conference languages will be English and German with simultaneous translation, but the written contributions for the Book of Abstracts, Conference Proceedings and the posters, as well as all other publications, will be in English only. Authors are asked to write their PowerPoint slides for the presentation in English.

Conference Location

Congress Centrum Bremen
Theodor- Heuss-Allee, 28215 Bremen, Germany

Interested persons working in the fields of wind energy research, development and application are herewith invited to send electronic abstracts of their contributions to the subjects mentioned below to the conference organisers by e-mail until 7 May 2010 at the latest. The abstract should not be longer than 1 page (DIN A4) and be written in English. The scientific committee of the DEWEK 2010 will select the contributions and decide whether they should be presented as an oral or a poster contribution. Authors will be informed about the acceptance of their paper not later than end of July 2010. All selected abstracts will be printed in a Book of Abstracts handed out to the conference participants. Also the authors of the selected contributions will be asked to submit a four-page long electronic version of their work for publishing in the conference proceedings.

Deadline for submission of abstracts: 7 May 2010

Contributions received after this date cannot be accepted for the conference. Please send your abstract (preferably) by e-mail to: dewek@dewi.de

Exhibition Stand DEWEK 2010

Binding Order:

Please fill in the form and return it as soon as possible.

The costs for a stand on both conference days (17th and 18th November 2010) are:

- 92,00 EUR / m² plus 19% V.A.T (normal rate, space only)
- 46,00 EUR / m² plus 19% V.A.T. (for research institutes and universities, space only)

The exhibition in the „Hanse Saal“ is accessible during the whole time of the conference for all participants and visitors

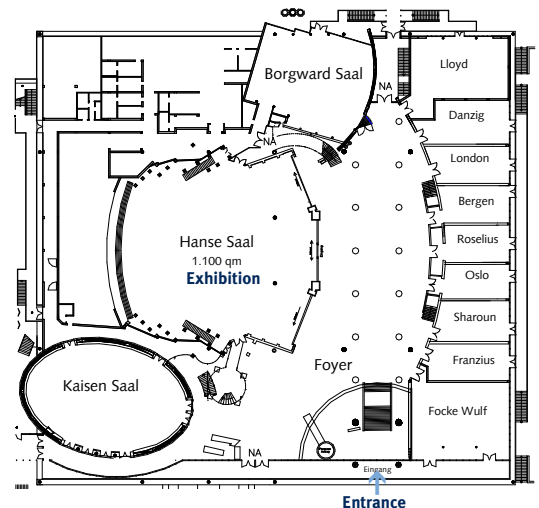

Yes - we order a booth area at the DEWEK 2010 of: _____ m² (min. 6 m²)

After your order you will get further information from us.

 City Date Signature

P.S.: Please do not forget to give your address above.

Overview of the Congress Centrum Bremen

Subjects of DEWEK 2010

Contributions can be submitted for the following subject areas:

1. Performance verification of wind turbines and wind farms (verification of measurements, planning/operation comparison etc.)
2. New technical developments of wind turbines and components
3. Full size and component tests, material testing, test procedures and results, test facilities
4. New and further developments, validation of & experience with simulation models (wind structure, short-term wind and power predictions, wind resources, mechanical load, wind turbine dynamics, etc.)
5. Measuring methods & measurement results (wind velocity, power performance, acoustic noise, loads, calibration of sensors, etc.)
6. Integration of wind turbines into the grid (grid optimisation, power quality, grid reinforcement, spatial distribution, firm power, optimised network of power plants, energy storages, etc.)
7. Operational experiences (operation & maintenance, icing and other environmental effects, life time, error statistics, damage analyses, etc.)
8. Offshore (technology, foundations, loads, grid connection, economy, infrastructure, construction and operation, measurements, environmental conditions, logistics, etc.)
9. Monitoring: procedures, results, experiences (condition monitoring, wind farm monitoring, load monitoring)
10. Influence on environment on- and offshore, noise propagation, recycling, waste management

The proposals submitted should be neither "company reports" nor advertising presentations, but have a scientific/technical content presented in public for the first time at DEWEK 2010. The programme committee will evaluate the technical content of a proposal as well as its general accessibility by the audience. Abstracts will be judged on clarity, significance, relevance, correctness and originality.

Notes for Authors

Summaries of the contributions selected for the conference will be included in a Book of Abstracts and should be written in English. The summary should therefore fulfil the following requirements:

1. One page only DIN A4 formatted in Arial 11pt
2. In the first line, title of the presentation followed by a blank line
3. In the next line, name(s) of the author(s), name of speaker first
4. In the next line(s), address(es) of the author(s) (company/institution, street, town, country, tel/fax, e-mail) one line for each author
5. After two blank lines, text of the summary mentioning not only the methodical approach but also the results achieved
6. Abstracts must be submitted by e-mail compatible with MS Word. Please don't send a PDF file.

In the top margin, please indicate the most appropriate session category for your paper.

Important Dates

- 07.05.2010: Last date for the submission of paper abstracts
- End of July 2010: Notification of authors about acceptance
- Mid of August 2010: Mailing of the provisional programme
- 01.10.2010: Deadline for early registration fees
- 12.11.2010: Deadline for late registration fees
17. / 18.11.2010 Conference / submission of written papers
- 19.11.2010: Excursion day

Registration Fees*

Normal fee	Registration and receipt of payment		
	Early fee until 01.10.2010	Late fee until 12.11.2010	On-site fee
two-day admission with conference dinner	€ 589.-	€ 689.-	€ 789.-
two-day admission without conference dinner	€ 510.-	€ 610.-	€ 710.-
one-day admission without conference dinner	€ 340.-	€ 390.-	€ 440.-
Students **			
two-day admission without conference dinner & lunch time snacks	€ 170.-	€ 225.-	€ 225.-
one-day admission without conference dinner & lunch time snacks	€ 125.-	€ 175.-	€ 175.-
Extras			
Additional Dinner	€ 79.-	€ 79.-	€ 79.-
Excursion	€ 50.-	€ 50.-	€ 50.-

* All Prices incl. 19% V. A. T.

** Full time students only. Maximum age is 30. Proof by presentation of a valid student ID.

Please note that authors, too, will have to register for the conference and pay the appropriate fee.

Unless specified otherwise, the registration fee includes:

- Participation in the conference
- Book of abstracts & Conference proceedings on CD
- Coffee/tea during breaks & 2 lunch time snacks (not for students)

Accommodation

The conference hotel is the Maritim Hotel, which has a direct access to the Congress Centrum Bremen. A certain quantity of reservations for the conference is available directly at the Maritim Hotel (Tel. +49 (0) 4 21 / 37 89-610, Fax. +49 (0) 4 21 / 37 89-600).

Other hotels in Bremen are also available. A list of available hotels can be found under <http://granevento.dns-24.de/dewek2010/en>
